Project Name	Empowering India: Analysing the Evolution of Union Budget Allocations for Sustainable Growth
Maximum Marks	2 Marks

Customer Problem Statement Template:

PS–1: Renewable Energy Tech Start up

Problem Statement (PS)

I am a renewable energy tech start up founder, I'm trying to expand my operations and invest in advanced research and development (R&D) to innovate sustainable energy solutions, But I face funding limitations and uncertainty in accessing government-backed financial support, Because Union Budget allocations and incentive schemes for clean energy and R&D vary each fiscal year and are complex to interpret, Which makes me feel uncertain about long-term planning, scalability, and aligning my innovation strategy with national sustainability priorities.

PS–2: Electric Vehicle (EV) Manufacturing Company

Problem Statement (PS)

I am an electric vehicle manufacturing company, I'm trying to scale up EV production and expand my product portfolio to meet growing market demand, But I struggle to clearly understand the impact of changing government incentives, subsidies, and tax benefits announced in recent Union Budgets, Because policy support for EVs, infrastructure development, and manufacturing-linked incentives has evolved across the 2021–22 to 2023–24 budgets, Which makes me feel concerned about investment risks, cost competitiveness, and timing strategic expansion decisions.

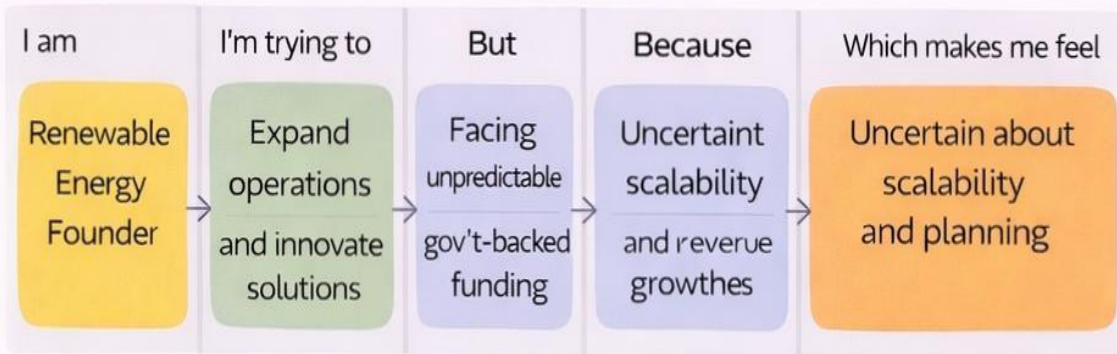

PS-3: Pharmaceutical & Healthcare Company

Problem Statement (PS)

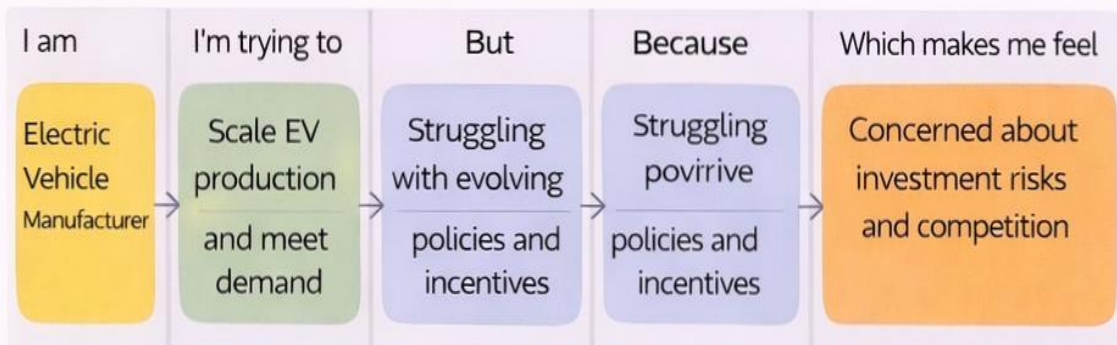

I am a pharmaceutical company planning to expand its healthcare and therapeutics portfolio, I'm trying to launch new drugs and strengthen R&D capabilities while addressing India's healthcare needs, But it is difficult to assess how government healthcare spending priorities influence market opportunities, Because Union Budget allocations for healthcare infrastructure, research funding, and public health initiatives have shifted significantly in recent years, Which makes me feel uncertain about aligning product development, pricing strategies, and long-term investments with national healthcare goals .

REPRESENTATION:

PS-1: Renewable Energy Tecs Startup

PS-2: Electric Vehicle (EV) Manufacturing Company

PS-3: Pharmaceutical & Healthcare Company

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Renewable Energy Founder	Expand operations & innovative solutions	Facing unpredictable gov't backed funding	Uncertain scalability and revenue growth	Uncertain about scalability and planning
PS-2	Electric Vehicle Manufacturer	Scale EV production and meet demand	Struggling with evolving policies and incentives	Struggling with progressive policies and incentives	Concerned about investment risks competition
PS-3	Pharma & Healthcare Executive	Launch new drugs and strengthen R&D	Dealing with shifting healthcare spending priorities	Dealing with shifting healthcare spending priorities	Concerned about investment risks competition
