Brainstorm & Idea Prioritization Template:

In the project “Empowering India: Analyzing the Evolution of Union Budget Allocations for Sustainable Growth,” the brainstorming phase focused on analyzing and visualizing Union Budget data (2021–2024) to support business and policy decisions. Key ideas included studying budget allocations across ministries, departments, schemes, and categories, identifying top-funded schemes, and comparing revenue and capital expenditures.

The goal was to present complex financial data through Interactive Tableau dashboards for easy understanding. For prioritization, emphasis was placed on dashboards that show major budget allocations, top ministries and schemes, and year-wise trends using clear visual tools such as bar charts, line graphs, and filtering.
