

Project Design Phase

Problem Solution Fit

Date	13 Feb 2026
Team ID	LTVIP2026TMIDS36802
Project Name	Empowering India: Analysing the Evolution of Union Budget Allocations for Sustainable Growth
Maximum Marks	2 Marks

Problem-Solution Fit :

The proposed Union Budget Analysis Dashboard achieves strong problem–solution fit by addressing the difficulty in understanding complex and scattered budget data from 2021–2024. Many users struggle to analyze sector-wise allocations and year-wise trends due to lack of clear visualization. The SQL + Tableau dashboard simplifies this data into interactive and easy-to-understand visuals. This ensures better transparency, informed decision-making, and improved accessibility for students, researchers, and analysts

Purpose:

- Validates that the solution is solving a real and clearly defined problem.
- Ensures alignment between user needs and project features.
- Reduces the risk of developing unnecessary or irrelevant functionalities.
- Improves the overall effectiveness and quality of the solution.
- Increases user adoption, satisfaction, and engagement.
- Supports long-term scalability and sustainable project success.
